PROJECT SUN STREAK

WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

PROJECT NUMBER:	5280	SESSION NUMBER:	01
DATE OF SESSION:	13 MAR 89	DATE OF REPORT:	13 MAR 89
START:	1435	END:	1510
METHODOLOGY:	CRV	VIEWER ID:	095

---

1. (S/NF/SK) MISSION: To access and describe the target site, its purpose, and to locate it geographically.

2. (S/NF/SK) VIEWER TASKING: "Locate and describe the target site represented by encrypted coordinates 262820/959040."

3. (S/NF/SK) COMMENTS:

a. Inclemencies: None reported.

b. 095 appeared, from first descriptions, to confuse the exact site with the general area (the entire Los Angeles area). She then defined the larger perspective, picked out the correct site from this perspective and went to it. 095 began to get correct target impressions, but the impression of "stone" began to drive the desire to make the site into a building.

c. 095 had expressed the desire to try WRV on this site, so the second and third EEI were postponed to the next session window.

d. Summary of Information enclosed.

SUMMARY OF INFORMATION

The target site is ~~city~~ with a town-like feel in that there are no structures over 10 stories. Structures in the city are closely packed together. There are many narrow streets some of which are made of something "like" stone or brick. On one side of the city there is a harbor. Along the docks are numerous warehouse like buildings (see sketch page 7). On the side of the city away from the harbor is a protected green area with a big white structure on it. The structure has a vertically oriented curve to it. The structure has a large ~~private balcony~~. The land on all sides of the structure gently slopes up to it. Strongly associated with the site is a dominant personality.

The structure ~~is~~ ~~symbolic~~ of something. The structure is worthy of a ruler - this symbology is kept even though if closely examined by the people of this region would be considered highly inappropriate within the context of their philosophy. Those supporting this symbology for this structure ignore this because of their own egos.
